

THE OUR VOICES PLEDGE

- We commit to seeking out voices in our communities that are:
 - diverse—created by and represent (including but not limited to) people of color, in the LGBTQIA community, who are differently abled, and/or who are in an ethnic, cultural, and/or religious minority
 - quality—reflect intention, craft, and objective review
- We will welcome diverse and quality authors by:
 - purchasing their materials and time, and supporting their efforts
 - developing and offering programming in which they are featured
 - presenting their works to a larger community.
- We will vigorously advocate for the inclusion of diverse and quality materials in the distribution system.
